## He's 21 & He's The Boss!

Muhammad Filtri Bin Mohamad Mokhtar enrolled in the Peneraju Skill Iltizam Wireless Technician (Network Roll-Out) programme when he was 18, and underwent training at Telecommunication Engineering College (TEC) for 2 months.

After completing the monitoring period with Yayasan Peneraju for a year, his outstanding performance caught the employer's eyes (Accomix IT Sdn Bhd) and was offered an opportunity to start another company as a sub contractor.

Now, at the age of 21, he is the proud owner of Aifiti Enterprise with 11 staff working under him. Amazing!

### COVID-19: Food Security

Though Malaysia is ranked **28 out of 113** countries in the Global Food Security Index, it's also among the lowest in expenditure for agricultural R&D at just **2.6/100**.

**"Agriculture needs to be given a priority. As things dragged on, we started to realise, if you stop people from being involved in agriculture, you will suffer a disruption in the food supply"**
