HARD WORK PAID OFF!

#IniCeritaAshraf

Muhammad Ashraf Azman can proudly say that his hard work has finally paid off!

This 5th child from 9 was born and raised in Terengganu and has shown interest in working as a crewmember aboard ships after graduation. Started off in Foundation of Agricultural Science at Universiti Putra Malaysia, Ashraf pursued his passion in Marine Electrical & Electronic field at Universiti Kuala Lumpur, Malaysian Institute of Marine Engineering Technology (UnikL MIMET) and graduated in 2017.

Towards designing his career as a ship crewmember, he decided to join Yayasan Peneraju's Electro Technical Officer programme, managed by Technology Depository Agency Berhad and was required to go through compulsory technical and modular courses at multiple learning institutions.

After 4 years 6 months of hard work including 12 months of sea time collection, Ashraf successfully passed his competency certificate exams from Marine Department Malaysia and certified as an Electro Technical Officer. He proudly shared that his highest earning per month can be up to RM30,000!

Hard work DOES pay off!
